CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

RECENT **OPERATIONS**

By Paul Rardin

School begins! I'd like to take this opportunity to extend cordial welcome to all of the new teach ers in the Everglades. I am positive that you'll like living here with us. You'll like teaching in Palm Beach county schools. In fact, just as soon as you get ac-quainted, it's going to be mighty hard for you to leave these parts.

Football! With the beginning of school there comes that outstanding sport—football. This year's schedule for the Pahokee Blue Devils looks like they might wind up the season with several losses chalked up against them. It's a little early to do any prognosticating but Coach Alley didn't cull 'em when he made up this season's schedule. He took 'em as they came and as a result there are some tough puts to crack this fall. some tough nuts to crack this fall.

Farming Season at Hand! Tract-Farming Season at Hand! Tractors are humming and trucks are already busy hauling seed and fertilizer. Before you know it the buyers will be drawing numbers out of hats for the fancy cars of beans. Folks are returning to the farm section and familiar loading haunts are fast filling up with those who farm from benches.

Hurricne
This is the season when Floridians begin to speculate as to whether we'll have another hurricane. Quite probably you've already heard such speculation this season and even speculated a little yourself.
Well, everybody hopes against hurricane dangers and destruction, but Floridians cannot feel that they are securely into another season until they are well into October.
Hurricanes have a way of rushing across Florida right at the end of the season when Floridians have already begun welcoming tourists and harvesting citrus.—Lakeland Ledger.

A Federal Law

A Crowd of people, most of them negroes, met at the Lincoln memorial in Washington and asked President Truman to convene congress to enact legislation to make lynching a federal offense. The Georgia lynching of two negro men and two negro women was simply murder. Georgia has the control of men and two negro women was simply murder. Georgia has laws to punish murder and has officers to run down murderers. If these murderers are not arrested and punished Georgia will stand before the country as a state where the law is impotent to punish unspeakably flagrant and heinous crime.

crime. And the forces that demand a federal anti-lynching law would be able to say to congress: You see that men have not been punished who have been guilty of the worst of lynchings, a lynching for which no pustification could be urged even under the lynching code. If the Georgia lynchers are not punished, Georgia may have to answer to the whole South for a federal anti-lynching law—and for all that such a law would portend for increased submerging of souvereign and self-governing states in an overpowering federal authorand self-governing states in an overpowering federal authority.—Little Rock (Ark. Andrew Jackson Was Versatile!

When Andrew Jackson was twitted on his poor spelling some 100 years ago, he is supposed to have made this characteristic reply: "Well, sir it's a damned poor mind that can't think of more than one way to spell a word!" Chaney Is Given 2 Years Sentence

Judge E. G. Newell in criminal court/Tuesday sentenced Walter Alexander (Elick) Chaney to two years in the State pentientiary on an assault to commit manslaugh-

ter charge.

Imposition of the sentence followed the appearance before the court of 16 Everglades residents, who testified as voluntary charac-ter witness on behalf of the de-fendant, asking clemency and ex-pressing the opinion that justice would be served by probation for Chaney.

Though voicing deep regret at having to sentence the defendant Judge Newell expressed the opin-ion that his action was mandatory in all fairness to the probation

when the probation system.

"The court feels," the judge began, "that the case has had much more notoriety than it deserves, due largely to dissatisfaction in

due largely to dissatisfaction in some quarters with the outcome of another case in which the defendant was involved. The court has no desire to impose punishment for other offenses for which he has been tried and acquitted. . I appreciate the way in which, so many of you folks have come in today on, behalf of the defendant. Many of you are close personal friends and wouldn't tell me anything you did not believe to be true. But the court has a job to do. My job is not easy. Never has it My job is not easy. Never has it been my disposition to hurt any-one. . . The probation system was established in 1941. I have been most careful since I have been on the bonch to when the bench to whom I gave proba-tion. I've considered this case, lain awake at night over it. Personally I would like to help this man. However, I do not feel that in all onesty I could grant Elick Chaney probation, because his position is such that I couldn't in all fairness fail to grant it to virtually anyone else who came before me. It is my purpose in the future if I can help him any way to do so. Now I have the unpleasant duty of sentencing

Chaney took the sentence stoical-ly, though his wife burst into tears. He said to Judge Newell: "I ap-preciate all that you have done for

New Race Tracks Okehed By Bosses

TALLAHASSEE - The Florida TALLAHASSEE — The Fiorida State Racing Commission has given its approval for the establishment of two new race tracks in Florida, one to be a harness race track near Jacksonville and the other a thoroughbred horse track at Oldsmar near Tampa.

Interests seeking the two tracks were granted conditional permits. The next step is the holding of local option elections in Hillsborough cal option elections in Hillsborough and St. Johns counties and if a favorable vote is cast, the commis-sion will grant permanent permits. The Jacksonville track, which is located 18 miles South of the city located 18 miles South of the city in St. Johns County and known as the Old Keene Track, would be operated by the Ponce de Leon Racing Association.

The racing commission denied a

permit for a harness racing track to be located at West Palm Beach, bably because of the number of broughbred tracks already existing in that section of the state.

" SERVING THE GLADES"

IT'S TRUE! That upward spiral of price rise hasn't so much as budged Greyhound fares. They have remained normal - just as low as before-the-war days. This is more remarkable too, since costs and maintenance of operating bus lines have risen sharply all along the line.

How does Greyhound do it? Well — it's no trade secret. The backbone of Greyhound Lines formula for success is more and better service to more people. Expansion and augmented service . . . efficient operation and the introduction of newest equipment have all combined to hold the line on bus fares.

Your travel dollar really buys more today than ever before in bus line transportation.
